

HOW TO SETUP GUEST VISIT

Once you have registered with Guest Visit, you are just a few simple steps away from being ready to receive worshippers in accordance with the government's COVID-19 guidelines and GDPR data security compliance.

Your place of worship QR code and URL / website link will be sent within minutes by email.

These are unique to your place of worship, and allow visitors to quickly and easily register by scanning the QR code on their smartphone or entering the URL into a browser.

If you have sub-venues, make a note of which identifiers relate to which location, for example Location A for the main Church, Location B for the Refectory etc.

Then it's as simple as:

1. Download the posters templates by clicking [HERE](#)
2. Add your logo, QR code & URL into the poster templates
3. Print posters for as many sub-venues as you require
4. Put the posters up at the entry to each location

You are now ready to receive worshippers
